

CDK JSON Creator, CDKJC

Dated: 17 Aug 2022

By: Lan Zheng Sheng

What is this used for? 这是干什么用的？

- To extract and obtain certain values from event Json for creating new Json for generating CDK using API calls. (Now only cater for “Lottery” type.)
- 从事件 Json 中提取和获取某些值，以创建新的 Json 以使用 API 调用生成 CDK。
(现在只迎合 “彩票” 类型。)
- This tool will allow this and at the same time save time and eliminate human error.
- 该工具将允许这样做，同时节省时间并消除人为错误。

How to use it? 如何使用它？

Step 1:

Open the xls file with Macro enabled.

第 1 步：
打开启用宏的 xls 文件。

Step 2:

Click <Clean Up> to always make sure you start new and acknowledge message box.

第 2 步：
单击 <Clean Up> 以始终确保您开始新的并确认消息框。

The screenshot shows an Excel spreadsheet with the following data table:

S/no	Package Description	奖品 Items Name	物品 Item_ID	数量Qty	item id	package id	Activity id	group_id	game_id	name	Start Time	End Time	Time Zone
1	CDK Type	CDK Total	CDK Limit	Send_Type	Number of Package	Language	Status						
2	3	15	10	lottery	1	ja	1						

Two buttons are visible in the top right corner:

- 1. Clean Up before using 2.
- 2. Run CDKjsonCreator

A blue arrow points from the '1. Clean Up before using 2.' button to a Microsoft Excel message box that says 'Clean Up Done!!!' with an 'OK' button.

How to use it? 如何使用它？

Step 3:

Paste your Json string at Json Sheet B1 as shown.

Note: To select the correct cell B1!

第 3 步：

将您的 Json 字符串粘贴到 Json Sheet B1，如图所示。

注意：要选择正确的单元格 B1！

	A	B
1	Copy Json @ B1	[
2		{
3		"activity_id": "new@activity-zsk4ma478jm",
4		"game_id": 28006,
5		"name": "CDK活动发布自定义参数配置",
6		"start_time": {
7		"seconds": 1660205831

22		"name": "白夜-二阶莹玉*共通-3100014",
23		"goods_items": [
24		{
25		"item_id": "item-7b812501bxy5",

◀ ▶ Main **Json** CDK Output JSON +

Select destination and press ENTER or choose Paste

How to use it? 如何使用它？

Step 4:

Fill in the details for the data fields in purple.
(Drop down list can be customize.)

It will also prompt user if certain fields are not filled when tried to run the tool.

第 4 步：
填写紫色数据字段的详细信息。
(下拉列表可以自定义。)

如果在尝试运行该工具时未填写某些字段，它还会提示用户。

The screenshot displays the CDKjsonCreator tool interface. The main form is a table with columns: CDK Type, CDK Total, CDK Limit, Send_Type, Number of Package, Language, and Status. The 'CDK Type' column has a dropdown menu with options: 1: 1 time 1 gamer use only, 2: 1 Key Multi gamer use, 3: 1 Gamer Multi use. The 'CDK Total' column is set to 15, 'CDK Limit' to 10, 'Send_Type' to lottery, 'Number of Package' to 1, 'Language' to ja, and 'Status' to 1. Below this table is another table with columns: Package Description, 奖品 Items Name, 物品 Item_ID, 数量Qty, item id, package id, and Activity_id. A warning dialog box from Microsoft Excel is overlaid on the bottom right, stating: 'Please make sure to select / key in values for the data fields in Purple!'. The dialog has an 'OK' button.

CDK Type	CDK Total	CDK Limit	Send_Type	Number of Package	Language	Status
3	15	10	lottery	1	ja	1

Package Description	奖品 Items Name	物品 Item_ID	数量Qty	item id	package id	Activity_id

Microsoft Excel

Please make sure to select / key in values for the data fields in Purple!

OK

How to use it? 如何使用它？

Step 5:

At Main sheet click <2.
Run CDKJsonCreator> to
start the CDK JSON
creation.

Once the message box
pop out, its done! Simply
copy and paste in postman
for the api call.

第 5 步：
在 Main 工作表中单击
<Run CDKJsonCreator>开
始 CDK JSON 创建。

一旦弹出消息框，就完
成了！
只需复制并粘贴到
postman中即可进行 api
调用。

S/no	Package Description	奖品 Items Name	物品 Item_ID	数量Qty	item id	package id	Activity_id	group_id	game_id	name	Start Time	End Time	Time Zone
1	白夜-二阶莹玉*共通-3100014	白夜-二阶莹玉*共通-3100014	3100014	1	item-7b81259bxy5	gift-6a5fx0r5b99	new@activity-zsk4ma478jm	prize-b0d4cb4046d739b7	28006	发布自定义	166020583	166023359	8

```
